Shipping Instructions

Transportation. All stock in this catalogue is shipped transportation collect. Our margin of profit at the prices quoted, is too narrow to permit payment of shipping charges.

Mail Shipments. If you wish your order by mail, please include sufficient postage. Will include extra plants to cover any surplus.

Express Shipments. If you live beyond 3rd zone, we recommend express shipments. Plants travel 2nd class just as cheap as mail.

Small Orders. Would appreciate orders amounting to at least \$1.00 or more as small orders are filled at a loss.

Shipment. Proper time to plant. Tell us when to ship.

Please give express office. Include cash with order.

Order Early. Give second choice. For the best results your stock should be planted just as early in the spring as possible. Many plants are too far advanced to plant after the middle of April.

CHRYSANTHEMUMS

Chrysanthemums are fast becoming one of the most popular of flowers. Last year we sold more Chrysanthemums than any other one kind of flower. Already many people have placed their orders for plants for this year. It used to be in times past that the Chrysanthemum bloomed so late that only people in very favorable conditions could raise them. However, they have been improved to the extent that anyone, even though you live in the higher altitudes, can raise Chrysanthemums. We have had Amelia Pink, Amelia White and Amelia Bronze, White Gull and Mrs. J. Smeardon bloom all through July. In August Early Bronze, Early Yellow, Flashlight, Deanna, Yellow Normandy and Normandy start blooming. From then on till Thanksgiving they are an array of color. Mention two or three second choices.

NEW ENGLISH CHRYSANTHEMUMS

We imported from Canada a hundred varieties of hardy English Chrysanthemums this last spring. They were by far the loveliest Chrysanthemums that we ever grew. Everybody that saw them raved about them and went and told others about them, and then they came to see them. They really were a sensation. One of the nice things about them is that they are all early. The dates given are the time they start blooming. **IF YOU DO NOT KNOW WHICH ONES YOU WANT, AND WANT TO LEAVE THE SELECTION TO US, WE WILL SEND YOU SEVEN FOR \$1.00.** We are offering about 50 varieties this year. Next year we want to add 50 or more varieties. Prices given are by the each. Mention two or three second choices.

MONTBRETIA

A very popular bulbous plant, producing a continuous succession of bloom all summer. They are planted and grown about the same as Gladiolus. The flowers, however, are much smaller and so is the foliage. They are more hardy than Gladiolus and where the winters are mild they may be mulched and left out all winter. Red, orange and yellow are the predominating colors.

Try a few. 50c doz., \$3.50 per 100.

TUBEROSES
